

Advertising in conventional sizes and formats, delivered to our audience members in locations adjacent to editorial content. For print, generally refers to ads sizes 1/6 page and larger; for digital generally refers to rotating banners and rich media ads on websites and in e-newsletters. Display is best used as a branding strategy to increase awareness and familiarity of your product or service. Employed in a repetitive manner, display keeps your brand top of mind with the audience.

**DIGITAL DISPLAY ADVERTISING RATES**

December 1, 2017

Digital advertising is sold at a cost per thousand impressions (CPM), where M = 1,000. To calculate the cost of your order, multiply the Sale Rate CPM for the ad type you're interested in by the number of 1,000's of times you want your ad to be seen. For example, if you want your Leaderboard ad to be seen 20,000 times, multiply the Sale Rate CPM for a Leaderboard by 20.
